Reviews

Merely no terms to spell out. We have read through and i also am confident that i will gonna read yet again again in the future. You will not sense monotony at anytime of your own time (that's what catalogs are for about should you question me).

PERFORMANCE OF CHILDREN FROM MONOGAMOUS AND POLYGAMOUS FAMILIES

LAP Lambert Academic Publishing Jun 2015, 2015. Taschenbuch. Book Condition: Neu. 220x150x6 mm. Neuware - This study reviewed differences in family backgrounds of pupils against their academic performance in Ibadan North-East municipality of Ibadan, Nigeria. The diverse contending studies on how the socio-economic backgrounds of these family structures aid children's academic attainments were examined. A total of two hundred and twenty pupils between the ages of 10 to 15 in junior secondary schools were sampled, N=220 and 8 teachers were interviewed. Study revealed that no significant differences existed in the pupils' levels of academic attainment and ethnic background, while a significant difference was found between the monogamous and polygamous pupils' religions across the various family structures observed. However, majority pupils' level of computer literacy was found to be poor. No significant differences were found in the pupils' parents educational achievement and occupational status. This study recommends: the need for effective parental involvement with children's academic activities, implementation of strategic initiative programme aimed at assisting children who are socioeconomically disadvantaged and to generally improve the pupils' literacy levels. 96 pp. Englisch.
