PATENTS (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Patents To the Inventor: In response to inquiries from inventors in many parts of New York and adjoining states, I have prepared the following pages, designed to explain the subjects most frequently inquired about, and to give all necessary information regarding the protection of inventions. I have not attempted a discussion of the patent law; but present this book simply as a guide to lead the inventor in the path where success may be attained, and to warn him of the pitfalls that have betrayed so many of his predecessors. An invention, if fully protected by letters patent, forms the foundation upon which a profitable business may be built. The measure of the inventors success will depend upon his ability and energy in building up and conducting such a business, or in disposing of his invention to others. Should a profitable business be established the patent pirate will sap the foundation if he can; and if there is a weak point in the patent he will surely find it. The best patent obtainable is none too good for a valuable invention; and buyers of patents are each year becoming better educated as to the difference between good and poor patent protection. Any desired information not found herein will be cheerfully granted on application in person or by mail. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
