SUSTAINABLE DEVELOPMENT AT RISK: IGNORING THE PAST

[DOWNLOAD](#)

Cambridge University Press/Foundation Books, 2007. Hardcover. Book Condition: New. First edition. Over the past half century, the idea of sustainable development has evolved and rooted itself in the lexicon on international development. But what is it, really? Are development agencies truly committed to long-term sustainable solutions to development issues? Are we learning from our past successes and failures? This book takes an historical perspective on these questions. The analysis begins with the Atlantic Charter, the creation of the United Nations, its family of agencies, and the international development banks. It reviews recommendations from international commissions and conferences, from World bank and UNDP development reports. It comments on governmental policies, human and industrial actions detrimental to the planet's environment and natural resources. It studies the patterns by which biotechnologies essential to human survival and health have progressed over the past 8,000 years, and the consequences of uncontrolled urban growth on food and health security. The author hopes that this book will be informative and helpful to all who care about human suffering and degradation of the Earth's environment and resources, in particular to men and women who are newcomers to international, governmental and non-governmental aid and assistance programmes. Contents Dedication Foreword Preface Acknowledgements 1 Introduction - Sustainable Development: scope and purpose of the text - Difficulties of definition and concept - Corporate memory - Ancient concepts of sustainable development - Developments since World War II - Food systems analysis - Industrial biotechnologies - Ethical, ideological and political issues General comment 2 Definitions and Concepts - Defining and determining development - What is sustainable development? - Sustainable: static or dynamic? - Primitive and early human development - Development out of poverty - Complexity of international development - Resource conservation - Adjusted net savings - Uncertainties unresolved 3 International Development: In the Beginning...
