

Building with Shapes: Analyze, Compare, Create, and Compose Shapes

By Bridget Valentine

Rosen Classroom, United States, 2013. Paperback. Book Condition: New. 203 x 203 mm. Language: English . Brand New Book. Geometry skills are learned from an early age, and readers build upon those first geometry lessons with topics like describing objects using the names of shapes, identifying both two-dimensional and three-dimensional shapes, and composing shapes. Readers are able to explore these essential concepts independently through accessible text and colorful images of both new and familiar shapes. Making larger shapes from simple ones is the focus of this engaging text, which specifically aligns with standard K.G.B.6 of the Common Core State Standards for Mathematics.
