Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from How to Plan a Lesson: And Other Talks to Sunday-School Teachers The ideas presented in the following pages are based upon both a theoretical and a practical knowledge of the subject, but are all such as have been and can be carried out by workers of ordinary ability and no technical training. Being interested in the philosophy of education, I saw, as others have done, the great advantage to be gained by applying the fundamental principles of teaching to Sunday-school work. The experiment was tried. In proportion as those principles were followed, the scholars showed both increased interest and increased hold on the matter presented. This bright response on the part of the children encouraged the spreading of the principles. Accordingly for some years they have been taught to Bible class scholars, in what has been called a Bible-normal class. The advantage to the Sunday-school of such a class is obvious. The Bible-normal scholars give a large proportion of their time to Bible work, and need not be more than sixteen years of age.
